Personal Phones and Accounts

If you work directly with children, you should store your mobile phone in a secure location before starting your shift. You should only use your personal devices during breaks, and not while interacting with children. Other streaming and photographic devices such as smartwatches are not to be worn if they have the capability to take images without a phone.

During the workday, please do your best to focus on your PACE communications rather than responding to personal messages. If you have a smartphone, please switch off notifications while you are working.
